## **DCL ANNOUNCES AVAILABILITY OF DIAGNOSTIC REAGENTS FOR VETERINARY APPLICATIONS**

Oxford, CT . . . Diagnostic Chemicals Limited (DCL) announces the availability of a line of diagnostic reagents designed for use with clinical veterinary applications. The addition of these reagents to DCL's extensive line of clinical chemistry products serves to benefit the needs of a wide variety of diagnostic veterinary laboratories.

DCL's line of veterinary reagents offers the utmost in operator convenience and currently includes assays for Albumin, Amylase, Carbon Dioxide (CO<sub>2</sub>), Lipase, Sorbitol Dehydrogenase (SDH), Total Bile Acids and Total Bilirubin. All reagents in DCL's veterinary line are available in a variety of flexible and operator-oriented packaging configurations. They feature exceptional shelf-life stability claims, extensive on-board and calibration stabilities, and demonstrate exceptional performance characteristics.

Reagents are suitable for use on fully automated instrumentation, and a comprehensive listing of applications is readily available for a wide variety of chemistry analyzers. An extensive offering of calibration and quality control materials is also available to support the product line.

***MORE . . .***

DCL serves the clinical chemistry, point-of-care, veterinary and life science markets with one of the most comprehensive product lines available. For additional information, contact DCL at 160 Christian Street, Oxford, CT 06478; Phone: 203-881-2020; FAX: 203-888-1143; E-mail: [sales@dclchem.com](mailto:sales@dclchem.com), or visit our website at [www.dclchem.com](http://www.dclchem.com).

TO THE EDITOR: Diagnostic Chemicals Limited (DCL) is a recognized leader in the discovery, development, manufacture, marketing and sales of novel reagents and assay systems to the IVD industry. DCL maintains offices throughout North America in Canada, Mexico and the United States, as well as a manufacturing and research facility operating under QSR and ISO Quality Systems located on Prince Edward Island, Canada.
